

TECHNICAL DATA SHEET

RHEOSOLVE™ T 638

High efficiency versatile thickener

TYPICAL CHARACTERISTICS

Nature	Acrylic emulsion
Appearance	Milky liquid
Solid Content (%)	30
pH	2.7
Specific gravity	1.06

DESCRIPTION

Rheosolve™ T 638 is a water based acrylic thickener formulation with no residual solvents which is low viscosity when supplied for an easier handling. Thanks to its associative nature when neutralized it provides superior thickening properties to various type of detergency formulations for Household and Institutional & Industrial industries.

RECOMMENDED ADDITION LEVEL

0.5-5%

STANDARD PACKAGING

Other packaging may be available upon request

- 1000L IBC
- 220L Drum
- Bulk

HANDLING & STORAGE

The product can be irreversibly altered by frost. It should be protected from the effects of weathering and stored between 5 and 40°C and protected from direct sun exposure. Once opened, packaging should be resealed immediately after use.

Film-forming at the surface of the product and/or sedimentation at the bottom of the packaging may happen. These phenomenon are normal and have no impact on the level of performances as long as the product meet the specifications. It is recommended to filter the product prior to use with a 400µm or 40 mesh filter.

In these conditions, this product should be used within 6 months from delivery.

HEALTH AND ENVIRONMENTAL DATA

For safe handling please refer to the Safety Data Sheet. For more information about health and environmental data, please contact us.

KEY BENEFITS

- Properties
 - High electrolyte tolerance
 - High surfactant compatibility
 - Versatile thickeners
- Thickening ability
