

## TECHNICAL DATA SHEET

# RHEOSOLVE™ T 701S

Suspending agent for home care formulations

### TYPICAL CHARACTERISTICS

Nature	Acrylic copolymer
Appearance	Milky liquid
Solid Content (%)	30
pH	3
Specific gravity	1.06

### DESCRIPTION

Rheosolve™ T 701S is a rheology modifier dedicated to thicken and suspend particles in all type of home care, household or industrial and institutional cleaning products. Rheosolve™ T 701S has an excellent ability to suspend particles in fluid formulations and provides smooth flow. It fosters the dispersion of all type of particles without the need of dispersant. Rheosolve™ T 701S is a liquid polymer, easy to use in cold process.

### RECOMMENDED ADDITION LEVEL

0.5 to 5%

### STANDARD PACKAGING

Other packaging may be available upon request

- 1000L IBC
- 220L Drum

### HANDLING & STORAGE

The product is irreversibly damaged when frozen. It should be protected from the effects of weathering, stored between 5 and 40°C and protected from direct sun exposure. Once opened, packaging should be resealed immediately after use.

Film-forming at the surface of the product and/or sedimentation at the bottom of the packaging may happen. These phenomenon are normal and have no impact on the level of performances as long as the product meet the specifications. It is recommended to filter the product prior to use with a 400µm or 40 mesh filter.

In these conditions, this product should be used within 6 months from delivery.

### HEALTH AND ENVIRONMENTAL DATA

For safe handling please refer to the Safety Data Sheet. For more information about health and environmental data, please contact us.

### MARKETS

#### Health, Hygiene, & Beauty

- Detergency & Cleaning
  - I&I

### PH OF USE

> 6.5

### KEY BENEFITS

- Properties
- Thickening ability

Suspension
