## ARKEMA LEADS SUSTAINABILITY DISCUSSIONS AT MULTIPLE COATINGS AND ADHESIVES EVENTS IN SEPTEMBER

**Arkema, a leader in specialty materials, will showcase a wide range of solutions for efficient building and living comfort, in support of decarbonization, circularity and other sustainability goals, at three upcoming events in September 2024:**

- **The European Adhesives and Sealant Conference and Expo (FEICA) 2024**, September 11-13 at the Noordwijk Conference Centre Leeuwenhorst, Noordwijkerhout (Netherlands)
- **The Adhesives and Sealants Council (ASC) Sustainability Summit 2024**, September 23-25 at the Westin Cincinnati, Cincinnati, Ohio (USA)
- **The European Technical Coatings Congress (ETCC) 2024**, September 23-25, at the Place of Popes, Avignon (France)

*"Arkema is leading the change with cutting-edge research to accelerate the development of more sustainable solutions to meet customer expectations for efficient building and indoor well-being. From enhancing the durability of waterborne binders to pioneering sustainable materials in construction, our commitment to decarbonizing the industry is not just a promise, but a reality we shape every day."* said Chris Miller, Coating Solutions Senior Director of Global Market Development. *"Conferences such as these help us communicate knowledge and work directly with other leaders in these industries. We look forward to meeting everyone there."*

Arkema is presenting multiple presentations at these events, as noted below:

### At FEICA:

- **"Advancing Sustainable Adhesives and Sealants for Decarbonizing the Built Environment"**, by Rick Miner, Sr. Research Engineer, September 13 at 10:00 am, Breakout IX – Sustainable Construction Concepts.

### At the ASC Sustainability Summit:

- **"Opportunities to Increase Sustainable Materials Development in the Building and Construction Industry"**, by Eric Dumain, Global Marketing Director, September 24 at 9:20 am.

### At ETCC

- **"Understanding and improving the water resistance of waterborne binders"**, by Simon Lottier, Technical Assistant Manager for Architectural coatings, September 24 at 11:00 am, Room Grand Promenoir.
- **"Waterborne alkyd emulsion, a solution to decarbonize wall, wood and metal decorative paints"**, by Gregory Delmas, Development & Innovation Leader, Architectural & Industrial Wood Finishes, September 24 at 11:30 am, Room Benoit 12.
- **"High performances coating additives in different market applications: focus on Orgasol® & Rilsan® polyamides powders"**, by Maud Basset, Business development manager, High Performance Polymer, September 25 at 2:30 pm, Room Tresorier.
- **"How to enhance paint properties with our latest innovations on polyurethane thickeners"**, by Yohann Trang, Global Business Manager - Coatings Additives, September 25 at 3:00 pm, Room Tresorier.

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address evergrowing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 92% of Group sales in 2023, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around € 9.5 billion in 2023, and operates in some 55 countries with 21,100 employees worldwide.
