

HPCI Mumbai 2018, broaden your horizons to rheology additives

The Home and Personal Care Ingredients Exhibition and Conference Mumbai is the most significant event in India for the formulation of cosmetics and cleaning products.

It's therefore a key opportunity for COATEX, world leader specialist of rheology to showcase its additives.

Coatex Business manager welcomes you with Vimal Lifesciences Pvt Ltd team on booth #200 for discussions and exchanges.

Thanks to more than forty years of experience in **the rheology of water based systems** and complex formulations, COATEX offers a large selection of **dispersants and thickeners** to the Home Care and Personal Care markets

In line with the latest trends of the beauty and personal care market, the Rheostyl™ range opens a wealth of **creative textures for cleansing products**.

Let's discover the key benefits of **Rheostyl™ 85 L** and the **new Rheostyl™ 100 to formulate transparent products with particles in suspension and smooth flow**

On the three main detergency submarkets, **fabric care, dish care** and **surface care**, COATEX offers a **complete portfolio of solutions** for scale inhibition & enhanced cleaning, **Rheosolve™ D** and and rheology additives within different thickening technologies **Rheosolve™ T**.

Visit us and discover the **new possibilities of formulations** at the Vimal Lifesciences Pvt Ltd booth **#200**.

Coatex designs and produces rheology additives for aqueous formulations and water-borne processes. With Innovation for Sustainable Development as a core strategy, Coatex is developing high performance additives to serve a wide variety of applications, such as Water-borne Paints & Coatings, Adhesives & Sealants, Paper Coatings, Minerals Processing, Construction, Homecare and Water Treatment. With production sites in France, the Netherlands, USA, China and Brazil, Coatex employs more than 450 people. Coatex is a subsidiary of the ARKEMA group, France's leading chemicals producer.
