

In-Cosmetics Global 2018, find the inspiration to innovate in the world of textures

In-Cosmetics Global 2018 is the leading global event for personal care ingredients, it's therefore a key opportunity for COATEX, world leader specialist of rheology to showcase its portfolio of innovations.

We invite you to meet our team on the Arkema group booth #C160 to exchange and discover our palette of surprising textures.

Thanks to more than forty years of experience in the **rheology** of **water based systems** and **complex formulations**, COATEX offers a comprehensive range of rheology modifiers, **Rheostyl™**.

In line with the latest trends of the beauty and personal care market, the Rheostyl™ range opens a wealth of **creative textures for cleansing as well as skin and hair care products**.

For your cleansing formulations, let's discover the key benefits of **Rheostyl™ 85 L** and the **new Rheostyl™ 100 to formulate eye catching products all over the pH range with transparent visual and suspended particles**.

Visit us and discover the **new possibilities of formulations** at the Arkema group booth **#C160**.

Coatex designs and produces rheology additives for aqueous formulations and water-borne processes. With Innovation for Sustainable Development as a core strategy, Coatex is developing high performance additives to serve a wide variety of applications, such as Water-borne Paints & Coatings, Adhesives & Sealants, Paper Coatings, Minerals Processing, Construction, Homecare and Water Treatment. With production sites in France, the Netherlands, USA, China and Brazil, Coatex employs more than 450 people. Coatex is a subsidiary of the ARKEMA group, France's leading chemicals producer.
